Ref. No.: _____

Dated : _____

To whomsoever it may concern

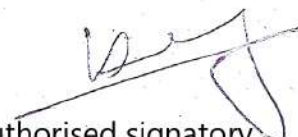

At the outset, let me place on record that Rotary Delhi South West, in collaboration with I-Catalysts and VisionSpring, orchestrated a series of eye-screening camps from March to May 2023, spanning across government-affiliated and sponsored schools in Delhi and the National Capital Region (NCR). I-Catalysts, known for its community-based approach, partners with and bolsters local organizations, while VisionSpring delivers comprehensive services—ranging from pre-screening to eyeglasses provision—across India.

The objective of these camps was to instill awareness, conduct thorough eye screenings, and distribute eyeglasses to children experiencing vision impairments. In total, we successfully screened over 12,500 children, with approximately 1700 of them receiving much-needed eyeglasses.

I-Catalysts played a critical role by offering exceptional mobilization support and effectively conveying the importance of eye care to the children. Additionally, the I-Catalysts team disseminated promotional materials to further educate on the subject matter.

We extend our best wishes to the I-Catalysts team in all their endeavors aimed at serving the public domain.
